Gloria - A Lifetime Motorcyclist: 75 Years on Two Wheels and Still Riding Gloria Struck
2018-03-08 Gloria Tramontin Struck rode a motorcycle for the very first time at age 16 in

1941. Women simply didn't ride motorcycles in 1941, but at the urging of her older brother, a very reluctant Gloria gave it a try, and it changed her life forever. She has been riding ever since, and at age 92, still rides regularly and continues to participate in cross country rides. As you might expect, any woman regularly riding a motorcycle in an era when women didn't ride motorcycles has a lot of stories to tell. In *Gloria Struck: 75 years on Two Wheels and Still Riding*, Gloria shares with you all of her favorite stories, from back when she was being raised behind her father's motorcycle shop in Clifton NJ, through 75 years of riding tales, all the way to the present, where she is rightfully celebrated at motorcycles rallies and events.

Complementing her life and riding stories is an extensive scrapbook of photos, over 100 of which are included in this autobiography. Also included are anecdotes provided by fans, friends and admirers. Of course, Gloria's book and her stories, are as much about overcoming prejudice

and personal obstacles, as it is about riding motorcycles. Because of that, this book resonates with riders and non-riders alike. The message is about more than riding, it's about meeting and conquering life's challenges with courage and humor.

Blade-Mounted Trailing Edge Flap Control

for Bvi Noise Reduction National Aeronautics and Space Administration (NASA) 2018-07-23

Numerical procedures based on the 2-D and 3-D full potential equations and the 2-D Navier-Stokes equations were developed to study the effects of leading and trailing edge flap motions on the aerodynamics of parallel airfoil-vortex interactions and on the aerodynamics and acoustics of the more general self-generated rotor blade vortex interactions (BVI). For subcritical interactions, the 2-D results indicate that the trailing edge flap can be used to alleviate the impulsive loads experienced by the airfoil. For supercritical interactions, the results show the necessity of using a leading edge flap,

rather than a trailing edge flap, to alleviate the interaction. Results for various time dependent flap motions and their effect on the predicted temporal sectional loads, differential pressures, and the free vortex trajectories are presented. For the OLS model rotor, contours of a BVI noise metric were used to quantify the effects of the trailing edge flap on the size and directivity of the high/low intensity noise region(s). Average reductions in the BVI noise levels on the order of 5 dB with moderate power penalties on the order of 18 pct. for a four bladed rotor and 58 pct. for a two bladed rotor were obtained.

The Boat Galley Cookbook: 800 Everyday Recipes and Essential Tips for Cooking Aboard Carolyn Shearlock 2012-09-28 No matter what anyone tells you, boat cooking IS different from cooking ashore. The space is smaller, there's no grocery store 5 minutes away, you have fewer prepared foods and electric appliances, and food storage is much different. Despite cruising different oceans, we—Jan and Carolyn--both faced the same challenges: eating well while having time to

enjoy all the other great aspects of cruising. We love to snorkel, swim, kayak, explore—and just sit and admire the view. We learned with the cookbooks we both had aboard, and wished for information that wasn't available--like when Jan ended up with a frozen chicken complete with head and feet and no instructions on how to cut it up. When we couldn't get foods such as sour cream, English muffins, spaghetti sauce or yogurt, we adapted recipes to make our own. Other times, we experimented with substituting ingredients--maybe the result wasn't identical, but it was still tasty. We ended up with over 150 substitutions and dozens of “make it yourself” options. As we traded recipes and knowledge with each other, we realized we were compiling information that became *The Boat Galley Cookbook*: 800+ recipes made from readily-obtainable ingredients with hand utensils, including numerous choices to suit every taste: not just one cake but 20, 16 ways to prepare fish, 10 regional barbeque sauces, and so on.

Step-by-step directions to give even “non-cooks” the confidence they can turn out tasty meals without prepared foods. Detailed instructions on unfamiliar things like making yogurt and bread, grilling virtually every food imaginable, preparing and cooking freshly-caught fish and seafood, cutting up and boning meat, cooking in a Thermos and baking on the stove top, as well as lots of tips on how to do things more easily in a tiny, moving kitchen. All this in an easy-to-navigate format including side tabs on the Contents to help you find your way and extensive cross reference lists at the end of each chapter. Quick Reference Lists provide idea starters: suggestions of included recipes for such categories as Mexican, Asian, and Potluck. *The Boat Galley Cookbook* is designed to help you every step of the way. We hope it becomes a trusted reference on your boat, and a source of many enjoyable meals.

A Purrfect Match Chris T. Kat 2012-12 When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts

calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

Marine Diesel Engines Nigel Calder 2003 Nigel Calder, a diesel mechanic for more than 25 years, is also a boatbuilder, cabinetmaker, and

machinist. He and his wife built their own cruising sailboat, Nada, a project they completed in 1984. Calder is author of numerous articles for *Yachting Monthly* and many other magazines worldwide, as well as the bestselling *Boatowner's Practical and Technical Cruising Manual* and *Boatowner's Mechanical and Electrical Manual*, both published by Adlard Coles Nautical. Here, in this goldmine of a book, is everything the reader needs to keep their diesel engine running cleanly and efficiently. It explains how diesel engines work, defines new terms, and lifts the veil of mystery that surrounds such engines. Clear and logical, this extensively illustrated guide will enable the reader to be their own diesel mechanic. As Nigel Calder says: 'there is no reason for a boatowner not to have a troublefree relationship with a diesel engine. All one needs is to set the engine up correctly in the first place, to pay attention to routine maintenance, to have the knowledge to spot early warning signs of impending trouble,

and to have the ability to correct small ones before they become large ones.'
