Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education Miloslav Rechcigl Jr. 2021-11-02 As pointed out in my last two publications, no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots. The aim of this work is to correct this glaring deficiency, with the focus on immigration from the period of mass migration and beyond, irrespective whether they were born in their European ancestral homes or whether they have descended from them. Whereas in the two mentioned monographs, the emphasis has been on scholars and social and natural scientists; and men and women in medicine, applied sciences and engineering, respectively, the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters, and in education. With respect to women, although most professional fields were closed to them through much of the nineteenth century, the area of arts and letters was opened to them, as noted earlier and as this compendium authenticates.

Social TV Cory Barker 2022-06-27 On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries’ utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, *Social TV* shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.

Lidia’s Italy Lidia Matticchio Bastianich 2010-08-18 Featuring 140 mouthwatering new recipes, a gastronomic journey of the Italian regions that have inspired and informed Lidia Bastianich’s legendary cooking. For the home cook and the armchair traveler alike, Lidia’s Italy offers a short introduction to ten regions of Italy—from Piemonte to Puglia—with commentary on nearby cultural treasures by Lidia’s daughter Tanya, an art historian. · In Istria, now part of Croatia, where Lidia grew up, she forages again for wild asparagus, using it in a delicious soup and a frittata; Sauerkraut with Pork and Roast Goose with Milnzi reflect the region’s Middle European influences; and buzara, an old

mariner’s stew, draws on fish from the nearby sea. · From Trieste, Lidia gives seafood from the Adriatic, Viennese-style breaded veal cutlets and Beef Goulash, and Sacher Torte and Apple Strudel. · From Friuli, where cows graze on the rich tableland, comes Montasio cheese to make fricos; the corn fields yield polenta for Velvety Cornmeal-Spinach Soup. · In Padova and Treviso rice reigns supreme, and Lidia discovers hearty soups and risottos that highlight local flavors. · In Piemonte, the robust Barolo wine distinguishes a fork-tender stufato of beef; local white truffles with scrambled eggs is “heaven on a plate”; and a bagna cauda serves as a dip for local vegetables, including prized cardoons. · In Maremma, where hunting and foraging are a way of life, earthy foods are mainstays, such as slow-cooked rabbit sauce for pasta or gnocchi and boar tenderloin with prune-apple Sauce, with Galloping Figs for dessert. · In Rome Lidia revels in the fresh artichokes and fennel she finds in the Campo dei Fiori and brings back nine different ways of preparing them. · In Naples she gathers unusual seafood recipes and a special way of making limoncello-soaked cakes. · From Sicily’s Palermo she brings back panelle, the delicious fried chickpea snack; a caponata of stewed summer vegetables; and the elegant Cannoli Napoleon. · In Puglia, at Italy’s heel, where durum wheat grows at its best, she makes some of the region’s glorious pasta dishes and re-creates a splendid focaccia from Altamura. There’s something for everyone in this rich and satisfying book that will open up new horizons even to the most seasoned lover of Italy.

The Logbooks Anne Farrow 2014-10-07 In 1757, a sailing ship owned by an affluent Connecticut merchant sailed from New London to the tiny island of Bence in Sierra Leone, West Africa, to take on fresh water and slaves. On board was the owner's son, on a training voyage to learn the trade. The *Logbooks* explores that voyage, and two others documented by that young man, to unearth new realities of Connecticut's slave trade and question how we could have forgotten this part of our past so completely. When writer Anne Farrow discovered the significance of the logbooks for the Africa and two other ships in 2004, her mother had been recently diagnosed with dementia. As Farrow bore witness to the impact of memory loss on her mother's sense of self, she also began a journey into the world of the logbooks and the Atlantic slave trade, eventually retracing part of the Africa's long-ago voyage to Sierra Leone. As the narrative unfolds in *The Logbooks*, Farrow explores the idea that if our history is incomplete, then collectively we have forgotten who we are—a loss that is in some ways similar to what her mother experienced. Her meditations are well rounded with references to the work of writers, historians, and psychologists. Forthright, well researched, and warmly recounted, Farrow's writing is that of a novelist's, with an eye for detail. Using a wealth of primary sources, she paints a vivid picture of the eighteenth-century Connecticut slavers. The multiple narratives combine in surprising and effective ways to make this an intimate confrontation with the past, and a powerful meditation on how slavery still affects us.

Every Nation for Itself Ian Bremmer 2013-04-30 G-Zero — \JEE-ZEER-oh\ —n A world order in which no single country or durable alliance of countries can meet the challenges of global leadership. What happens when the G20 doesn't work and the G7 is history. If the worst threatened—a rogue nuclear state, a major health crisis, the collapse of the global financial system—where would the world look for leadership? For the first time in seven decades, there is no single power or alliance of powers ready to take on the challenges of global leadership. A generation ago, the United States, Europe, and Japan were the world's powerhouses, the free-market democracies that propelled the global economy forward. But today, they struggle just to find their footing. Acclaimed geopolitical analyst Ian Bremmer argues that this leadership vacuum is here to stay, as power is regionalized instead of globalized. Now that so many challenges transcend borders—from the stability of the global economy and climate change to cyber-attacks and terrorism—the need for international cooperation has never been greater.

Static in the System Meredith C. Ward 2019-02-26 In this rich study of noise in American film-going culture, Meredith C. Ward shows how aurality can reveal important fissures in American motion picture history, enabling certain types of listening cultures to form across time. Connecting this history of noise in the cinema to a greater sonic culture, *Static in the System* shows how cinema sound was networked into a broader constellation of factors that affected social power, gender, sexuality, class, the built environment, and industry, and how these factors in turn came to fruition in cinema's soundscape. Focusing on theories of power as they manifest in noise, the history of noise in electro-acoustics with the coming of film sound, architectural acoustics as they were manipulated in cinema theaters, and the role of the urban environment in affecting mobile listening and the avoidance of noise, Ward analyzes the powerful relationship between aural cultural history and cinema's sound theory, proving that noise can become a powerful historiographic tool for the film historian.
