**Death** Elisabeth Kübler-Ross 2009-11-24 Ours is a death-denying society. But death is inevitable, and we must face the question of how to deal with it. Coming to terms with our own finiteness helps us discover life's true meaning. Why do we treat death as a taboo? What are the sources of our fears? How do we express our grief, and how do we accept the death of a person close to us? How can we prepare for our own death? Drawing on our own and other cultures' views of death and dying, Elisabeth Kübler-Ross provides some illuminating answers to these and other questions. She offers a spectrum of viewpoints, including those of ministers, rabbis, doctors, nurses, and sociologists, and the personal accounts of those near death and of their survivors. Once we come to terms with death as a part of human development, the author shows, death can provide us with a key to the meaning of human existence.

**Adhesives and Adhesive Tapes** Gerhard Gierenz 2008-09-26 Adhesion is among the oldest technologies known to mankind, but the technology of adhesives began to boom with the developments in chemistry in the early 1900s. The last few years have seen tremendous progress in the performance of adhesives, allowing two pieces to be connected inseparably. Modern adhesives perform so well that more sophisticated joining methods, e.g. welding, can often be replaced by adhesion, meaning that adhesives have found new areas of application. This book allows readers to quickly gain an overview of the adhesives available and to select the best adhesive for each purpose.

**The William S. Paley Collection** William Rubin 2012 William S. Paley, founder of CBS, Inc., and a towering figure in the modern entertainment, communication and news-dissemination industries, was also an enthusiastic collector of twentieth-century art and a committed supporter of The Museum of Modern Art. This volume presents his extraordinary personal collection of eighty-four paintings, sculptures, prints and drawings by some of the most important figures of modern art, including Paul Cézanne, André Derain, Paul Gauguin, Henri Matisse and Pablo Picasso, bequeathed to the Museum in one of the most significant transfers of a private collection to a public institution in recent history. Paley embraced modernism during a period when most collectors sought works by Old Masters, and he built his collection based on personal taste with little regard for art-world prestige. Aside from certain loans made to enhance exhibitions at MoMA, his collection rarely left the walls of his home and office and was seldom seen by the public until it was left to the William S. Paley Foundation for donation to the Museum. This richly illustrated volume, originally published in 1992 to accompany a series of traveling exhibitions organized by MoMA to bring this outstanding collection to venues around North America, presents each work on a full page accompanied by commentary from William Rubin, Director Emeritus of the Department of Painting and Sculpture, and Matthew Armstrong, former Curator in the Department of Painting and Sculpture.
