**Education During COVID-19** Austin Mardon 2020-10-26 The year 2020 has undoubtedly been one of the most eventful years, to say the least. A virus outbreak that started in Wuhan, China in December 2019, quickly

escalated into a global pandemic by march 2020. This outbreak impacted several industries among which was the education industry.

Considerable modifications were abruptly made in order to keep up with the chaos of the pandemic. Many educational institutions were shut down in order to reduce the spread of the virus and in hopes to flatten the curve. As this pandemic was an unprecedented circumstance, many educators and students were unprepared to adjust to the new method of education: the virtual classroom. This book goes into detail and analyzes various aspects of education during COVID-19. Further, the academic and psychological consequences of education during COVID-19 are presented, as well as methods to help combat educational challenges faced during this difficult time.

**Aquarium** David Vann 2015-03-03 From the award-winning author of Legend of a Suicide: "A kind of modern fairy tale . . . Vann's novels are striking, uncompromising portraits of American life" (Kirkus Reviews, starred review). David Vann's dazzling debut Legend of a Suicide was reviewed in over a 150 major global publications, won eleven prizes worldwide, was on forty "best books of the year" lists, and established its author as a literary master. Now, in crystalline, chiseled yet graceful prose, Aquarium takes us into the heart of a brave young girl whose longing for love and capacity for forgiveness transforms the damaged people around her . . . Twelve-year-old Caitlin lives alone with her

mother—a docker at the local container port—in subsidized housing next to an airport in Seattle. Each day, while she waits to be picked up after school, Caitlin visits the local aquarium to study the fish. Gazing at the creatures within the watery depths, Caitlin accesses a shimmering universe beyond her own. When she befriends an old man at the tanks one day, who seems as enamored by the fish as she, Caitlin cracks open a dark family secret and propels her once-blissful relationship with her mother toward a precipice of terrifying consequence. “A blue-collar parable . . . [The character] looks back on her life as a child looks into a tank, hoping to make sense of the world inside—a theme Vann develops beautifully, creating a mysterious realm of the wintry American city.”

*All the Wild Children* Josh Stallings 2013-03-07 ANTHONY AWARD

NOMINATED. From the author of the critically acclaimed Moses McGuire crime series comes a brutally honest memoir. Raised in the 60's counter-culture, a teen in the 70's, and a father in the go go 80's. White boy in a ghetto high school. Guns. Drugs. Sex. Fatherhood. Heart warming, uplifting and tough. A life writ large. \*\*\*"Josh has done an incredible job with the hand life dealt him. I admire the hell outa that. All the Wild Children is simply Stunning." - KEN BRUEN\*\*\*"What is most remarkable about All The Wild Children isn't the rhythmic fleetness of it's earnest prose, nor the relentless pace, nor the fantastic nature of its plot, nor, even, the fact that it is all true. What is most remarkable is that Josh Stallings managed to survive malicious fate, addiction, and the belligerent idiocy of his youth, and somehow find some dregs of fortitude remaining that allowed him to put it all on the page with a rare degree of honesty; willingly admitting that truth is fleeting and that this is no more than his best recollection of the storms and what they left behind.

Laughing in the face of brutal misfortune and epic poor judgement is a tonic. One that Stallings graciously invites us to imbibe with him. Drink up. God knows Josh did." - CHARLIE HUSTON\*\*\*"Someday, this will read much better than it lived." - LARK STALLINGS (1975)

**Elfin** Quinn Loftis 2012-12-23 Before tonight Cassie Tate's biggest concerns were whether she could pass Algebra and how she was going to keep Elora, her best friend, from dressing her in a skimpy fairy costume for Halloween. Her feet were firmly planted in suburban reality and she had no reason to believe her life would be anything but that of a typical teenager. That is until tonight, when Cassie saw something that no human was ever supposed to see; in the blink of an eye she was thrown

into the world of the Light and Dark Elves. He comes from a realm where light and dark have fought for millennia. He is of a race known to humans only in myths and legends. The darkness that lives inside him is a part of both who and what he is and it makes him the most gifted spy and assassin in the history of his time. His life is not his own; he lives in the service of the Dark Elf King. He slays who he must, has mercy on no one, is relentless in his hunt, and never tires of seeing his prey fall. He is Triktapic, assassin, spy, most feared of the Dark Elves. Now, in the midst of his King's complicated plans to expand the Dark Elves' holdings into the mortal realm, for the first time, Trik finds his loyalties divided. For no Elf, Dark or Light, can turn away from their Chosen. Unbeknownst to the mortal realm, the battle between Light and Dark is being brought to their doorstep. The only one who can keep it at bay holds darkness in his heart like a lover, and the one who can sway that heart must decide if she can look beyond his black past, beyond his evil nature and see the man he is destined to be. The questions must be asked, does love really cover a multitude of sins? Can true love actually conquer all or will his darkness consume those around him until all that stands is an assassin with the blood of the mortal realm on his hands?

*Drinking* Caroline Knapp 1999-08-02 Fifteen million Americans a year are plagued with alcoholism. Five million of them are women. Many of them, like Caroline Knapp, started in their early teens and began to use alcohol as "liquid armor," a way to protect themselves against the difficult realities of life. In this extraordinarily candid and revealing memoir, Knapp offers important insights not only about alcoholism, but about life itself and how we learn to cope with it. It was love at first sight. The beads of moisture on a chilled bottle. The way the glasses clinked and the conversation flowed. Then it became obsession. The way she hid her bottles behind her lover's refrigerator. The way she slipped from the dinner table to the bathroom, from work to the bar. And then, like so many love stories, it fell apart. *Drinking* is Caroline Knapp's harrowing chronicle of her twenty-year love affair with alcohol. Caroline had her first drink at fourteen. She drank through her yeras at an Ivy League college, and through an award-winning career as an editor and

columnist. Publicly she was a dutiful daughter, a sophisticated professional. Privately she was drinking herself into oblivion. This startlingly honest memoir lays bare the secrecy, family myths, and destructive relationships that go hand in hand with drinking. And it is, above all, a love story for our times—full of passion and heartbreak, betrayal and desire—a triumph over the pain and deception that mark an alcoholic life. Praise for *Drinking* “Quietly moving . . . Caroline Knapp dazzles us with her heady description of alcohol's allure and its devastating hold.”—Los Angeles Times Book Review “Filled with hard-won wisdom . . . [a] perceptive and revealing book.”—San Francisco Chronicle “Eloquent . . . a remarkable exercise in self-discovery.”—The New York Times “Drinking not only describes triumph; it is one.”—Newsweek

*The Brain That Changes Itself* Norman Doidge 2007-03-15 "Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain."—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to

work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

**Emma the Captive** César Aira 2016-12-06 Emma The Captive, César Aira's second novel, is perhaps closest in style to his popular *An Episode in the Life of a Landscape Painter* and *The Hare* In nineteenth-century

Argentina, Ema, a delicate woman of indeterminate origins, is captured by soldiers and taken, along with with her newborn babe, to live as a concubine in a crude fort on the very edges of civilization. The trip is appalling (deprivations and rapes prevail along the way), yet the real story commences once Ema arrives at the fort, where she takes on a succession of lovers among the soldiers and Indians, leading to a brave and grand entrepreneurial experiment. As is usual with Aira's work, the wonder of the book is in the details of customs, beauty, and language, and the curious, perplexing reality of human nature.

*Good and Cheap* Leanne Brown 2015-07-14 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally

known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The

author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.
