Ladies' Detective Agency and an investigation into the

would-be suitors of a wealthy woman to determine if any

are fortune hunters.

Computability and Complexity Adam Day 2016-11-30 This

Festschrift is published in honor of Rodney G. Downey,

eminent logician and computer scientist, surfer and

Scottish country dancer, on the occasion of his 60th

birthday. The Festschrift contains papers and laudations

that showcase the broad and important scientific,

leadership and mentoring contributions made by Rod

during his distinguished career. The volume contains 42

papers presenting original unpublished research, or

expository and survey results in Turing degrees,

computably enumerable sets, computable algebra,

computable model theory, algorithmic randomness, reverse

mathematics, and parameterized complexity, all areas in

which Rod Downey has had significant interests and

influence. The volume contains several surveys that make

the various areas accessible to non-specialists while

also including some proofs that illustrate the flavor of

the fields.

A Pattern Language Christopher Alexander 2018-09-20 You

can use this book to design a house for yourself with

your family; you can use it to work with your neighbors

to improve your town and neighborhood; you can use it to

design an office, or a workshop, or a public building.

And you can use it to guide you in the actual process of

construction. After a ten-year silence, Christopher

Alexander and his colleagues at the Center for

Environmental Structure are now publishing a major

statement in the form of three books which will, in

their words, "lay the basis for an entirely new approach

to architecture, building and planning, which will we

hope replace existing ideas and practices entirely." The

three books are *The Timeless Way of Building*, *The Oregon*

Experiment, and this book, *A Pattern Language*. At the

core of these books is the idea that people should

design for themselves their own houses, streets, and

communities. This idea may be radical (it implies a

radical transformation of the architectural profession)

but it comes simply from the observation that most of

the wonderful places of the world were not made by

architects but by the people. At the core of the books,

too, is the point that in designing their environments

people always rely on certain "languages," which, like

the languages we speak, allow them to articulate and

communicate an infinite variety of designs within a

forma system which gives them coherence. This book

provides a language of this kind. It will enable a

person to make a design for almost any kind of building,

or any part of the built environment. "Patterns," the

units of this language, are answers to design problems

(How high should a window sill be? How many stories

should a building have? How much space in a neighborhood

should be devoted to grass and trees?). More than 250 of

the patterns in this pattern language are given: each

consists of a problem statement, a discussion of the problem with an illustration, and a solution. As the authors say in their introduction, many of the patterns are archetypal, so deeply rooted in the nature of things that it seems likely that they will be a part of human nature, and human action, as much in five hundred years as they are today.

The Odyssey of Homer. Translated ... by Alexander Pope, Esq Homer 1753

Ohio Source Records from the Ohio Genealogical Quarterly 1986-01-01 Ohio Source Records is composed of articles from the scarce periodical The Ohio Genealogical Quarterly. This book consolidates and indexes the contents of the periodical, which consisted chiefly of cemetery records, tax lists, newspaper abstracts, and vital records, the combined articles bearing reference to about 45,000 persons.

Alexander Histories and Iranian Reflections Parivash Jamzadeh 2012-08-17 Parivash Jamzadeh demonstrates how the propaganda material used during Alexander the Great's military campaign to conquer the Achaemenid empire shows multiple layers of Iranian influences. She also shows that the studied sources do not always offer an accurate account of the contemporary Iranian customs and occasionally included historical inaccuracies.

Always Kindle Alexander 2014-03-16 Born to a prestigious political family, Avery Adams plays as hard as he works. The gorgeous, charismatic attorney is used to getting what he wants, even the frequent one-night stands that earn him his well-deserved playboy reputation. When some of the most prominent men in politics suggest he run for senate, Avery decides the time has come to follow in his grandfather's footsteps. With a strategy in place and the campaign wheels rolling, Avery is ready to jump on the legislative fast track, full steam ahead. But no amount of planning prepares him for the handsome, uptight restaurateur who might derail his political future. Easy isn't even in the top thousand words to describe Kane Dalton's life after his father, a devout southern Baptist minister, kicks him out of the family home for questioning his sexual orientation. Despite all the rotten tomatoes life throws his way, Kane makes something of himself. Between owning a thriving upscale Italian restaurant in the heart of downtown Minneapolis and managing his long-term boyfriend, his plate is full. He struggles to get past the teachings of his childhood to fully accept his sexuality and rid himself of the doubts brought on by his religious upbringing. The last thing he needs is the yummy, sophisticated, blond-haired distraction sitting at table thirty-four.
