Breastfeeding in Combat Boots Robyn Roche-Paull 2010-01-01

Breastfeeding in Combat Boots is a much needed resource for active-duty mothers and mothers-to-be, who are seeking information and support on how to breastfeed successfully while serving their country. Are you pregnant and in the military? Do you want to breastfeed, but just don't know how you can combine 12 hour shifts, training exercises, or deployment with breastfeeding your baby? Robyn Roche-Paull answers these questions and more in *Breastfeeding in Combat Boots - A Survival Guide to Successful Breastfeeding While Serving in the Military*. As a

veteran of the United States Navy, mother of three breastfed children, International Board Certified Lactation Consultant, and La Leche League Leader, the author has helped many active-duty mothers breastfeed their babies. She has now compiled this knowledge into a comprehensive guide to help all mothers in the military breastfeed their babies successfully. Most services now have written policies in place to support breastfeeding and direct commanders to provide a place and time for pumping milk. However, even with the policies in place, military mothers face unique circumstances that can make breastfeeding successfully a challenge. This book was written to help military mothers overcome the challenges they face so they can provide the best nutrition for their babies. Some of the topics covered include: How do I get breastfeeding off to a good start in only six short weeks? Can I pump while in the desert for training exercises? Is my pump allowed onboard ship? Do I need to pump and dump if I've been exposed to JP-8? How do I deal with co-workers who do not support my pumping while on duty? These questions and more are answered in *Breastfeeding in Combat Boots!* In this book, the author provides military moms with insight into the rewarding and wonderful aspects of breastfeeding on active duty, while also giving a realistic look at the challenges that lay ahead. If you are an active-
