Harley-Davidson Sportster Performance Handbook

Buzz Buzzelli 2006 For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself often does not live up to. Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how

the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head.

Pierce Fire Apparatus 1939-2006 Kent Parrish 2007-06-01 Founded by Dudley and Humphrey Pierce in 1913, the Auto Body Works, of Appleton, Wisconsin, became noted for producing custom utility bodies on commercial truck chassis. In 1939, the Auto Body Works began building fire apparatus bodies to supplement its business. The company would eventually assume the name of Pierce Manufacturing. Propelled by an association with the famous Snorkel device and the introduction of products that would become fire service trends, Pierce became the new giant in the fire apparatus industry. Today, Pierce Manufacturing is a division of the Oshkosh Truck Corporation. This work

informatively and vividly illustrates the history of Pierce fire apparatus from its first fire apparatus bodies to its ultra-modern machines of today. The progression of Pierce fire apparatus is displayed through the use of black and white photographs from both well-known fire apparatus photographers and company archives. Included are apparatus deliveries from every state in the United States, as well as exports to other countries, and examples of nearly every model and variation produced by Pierce. A vibrant color gallery shows fire apparatus in a wide array of color schemes specified by Pierce customers and displays the finest photographs available.
