**Emotion & Relationships (2 Books in 1)** Sadhguru 2017-12-07 Emotion "One can make any emotion into a creative force in one's life." - Sadhguru It's not just poetic license that allows us to refer to emotions as "juicy". In a literal sense also, emotions are a chemical cocktail that course through our bodies. But while we have no problems with pleasant emotions, unpleasant emotions are the source of much angst in our lives. In Emotion: The Juice of Life, Sadhguru looks at the gamut of human emotions and how to turn them into stepping stones rather than stumbling blocks. Relationships "If you enhance yourself into a very beautiful state, everyone will want to hold a relationship with you." - Sadhguru Human beings constantly make and break relationships. Unfortunately, relationships can make and break human beings too. Why are relationships such a circus for most of us? What is this primal urge within us that demands a bond - physical, mental, or emotional - with another? And how do we keep this bond from turning into bondage? These are the fundamental questions that Relationships: Bond or Bondage looks at as Sadhguru shares with us the keys to forming lasting and joyful relationships, whether they are with husband or wife, family and friends, at work, or with the very existence itself. Sadhguru is a yogi and profound mystic of our times. An absolute clarity of perception places him in a unique space in not only matters spiritual but in business, environmental and international affairs, and opens a new door on all that he touches.

**The Home-Coming** Rabindranath Tagore 2014-12-25 Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7 August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of Gitanjali and its "profoundly sensitive, fresh and beautiful verse", he became the first non-European to win the Nobel Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry" remain largely unknown outside Bengal. Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and Pakistan.

**Science, Evolution, and Creationism** Institute of Medicine 2008-01-28 How did life evolve on Earth? The answer to this question can help us understand our past and prepare for our future. Although evolution provides credible and reliable answers, polls show that many people turn away from science, seeking other explanations with which they are more comfortable. In the book Science, Evolution, and Creationism, a group of experts assembled by the National Academy of Sciences and the Institute of Medicine explain the fundamental methods of science, document the overwhelming evidence in support of biological evolution, and evaluate the alternative perspectives offered by advocates of various kinds of creationism, including "intelligent design." The book explores the many fascinating inquiries being pursued that put the science of evolution to work in preventing and treating human disease, developing new agricultural products, and fostering industrial innovations. The book also presents the scientific and legal reasons for not teaching creationist ideas in public school science classes. Mindful of school board battles and recent court decisions, Science, Evolution, and Creationism shows that science and religion should be viewed as different ways of understanding the world rather than as frameworks that are in conflict with each other and that the evidence for evolution can be fully compatible with religious faith. For educators, students, teachers, community leaders, legislators, policy makers, and parents who seek to understand the basis of evolutionary science, this publication will be an essential resource.

*Social Worlds of Children Learning to Write in an Urban Primary School* Anne Haas Dyson 1993 Dyson supports efforts to make literacy curricula accessible to our schools' socioculturally diverse population. This two-year ethnographic study of K-3 children focuses on six students who would normally be deemed "at-risk" and who do not tell stories in the written language format valued by most early literacy educators. Their literacy learning, particularly their writing development, is portrayed as a social process in a complex social world. Dyson's key theme is the link between composing a text and composing a place in this social world. "Dyson reconceptualizes classrooms as places for dynamic combinations of critical thinking, humor, growth, and understanding for children and their teachers." -Harvard Educational Review

*Punjab* Rajmohan Gandhi 2015-09-16 An unprecedented historical account of undivided Punjab, from the death of Aurangzeb to the Partition. For centuries, the fertile land of five rivers in the north of the Indian subcontinent was coveted by numerous empires and invaders. In this, the first major account of undivided Punjab, award-winning historian, biographer and scholar, Rajmohan Gandhi, gives us its history during its most tumultuous phase from the death of Aurangzeb, in the early eighteenth century, to its brutal partition in 1947, coinciding with the departure of the British. Relying on fresh sources as well as previous accounts provided from opposing perspectives, the author fashions a compelling narrative about the great events of the time in the region - the battles and tragedies that routinely disrupted the lives of ordinary Punjabis, the sacking of iconic cities like Lahore, Amritsar, Multan and Jalandhar by a succession of conquerors, the ravages wrought by invaders like Nadir Shah, the rise of the Sikhs culminating in the storied reign of Maharaja Ranjit Singh, Britain's successful wars against the Sikh kingdom, the Great Rebellion of 1857 and its effect on Punjab, imperialist machinations, the influence on the people by leaders of the independence movement like Mahatma Gandhi, Muhammad Ali Jinnah and Lala Lajpat Rai, as also key regional figures such as Fazl-i-Husain, Master Tara Singh, Sikander Hayat Khan and Khizr Hayat Tiwana, the devastation of Partition - and much else besides. Believing that modern India and Pakistan cannot be understood without comprehending the Punjab that was, the author also delves into the idea of Punjabiyaat - Punjabiness - the literature and poetry of creative giants like Bulleh Shah, Waris Shah, Iqbal, Amrita Pritam and Saadat Hasan Manto, the spiritual teachings of the Sikh Gurus and Sufi saints and, above all, the testimonials and narratives of ordinary Punjabis, to create an unforgettable portrait of a place - undivided Punjab - that continues to fascinate us (even though it broke up more than six decades ago) and of its hard-tested and resilient people, Hindu, Muslim and Sikh.
