What Place for Fairness in Digital Content Contracts? Agustin Reyna 2020-10-29 Verbraucher sehen sich häufig Beschränkungen beim Zugang zu und bei der Nutzung von online angebotenen Inhalten ausgesetzt, die in Endbenutzer-Lizenzvereinbarungen durchgesetzt werden. Diese Beschränkungen können mit den durch das EU-Verbraucherrecht geschützten Verbraucherinteressen kollidieren. Dieses Buch bewertet die ungeklärte Beziehung zwischen dem EU-Urheberrecht und dem Verbraucherrecht, indem es die geltenden Rechtsvorschriften für die Bereitstellung digitaler Inhalte, einschließlich der neuen Richtlinie über digitale Inhalte und digitale Dienste und der Richtlinie über das Urheberrecht im digitalen Binnenmarkt, sowie die einschlägige Rechtsprechung des EuGH zur Beurteilung von Grundrechtskonflikten im Zusammenhang mit urheberrechtlichen Nutzungsbeschränkungen sorgfältig berücksichtigt. Dieses Buch enthält einen Vorschlag für einen integrativen Ansatz, der darauf abzielt, die Interessen von Urheberrechtsinhabern und Verbrauchern beim Zugang zu digitalen Inhalten und deren Nutzung miteinander in Einklang zu bringen.

Limitless Mind Russell Targ 2010-10-04 The psychic abilities of most humans are dampened by the clatter of our conscious minds. In this timely book, Russell Targ shows readers how to quiet this noise and see into the far reaches of time and space through remote viewing. He also illuminates the phenomena of intuitive medical diagnosis and distant healing in a groundbreaking synthesis of research and empirical data. Drawing on a broad range of spiritual traditions, Targ demonstrates that these psychic abilities offer a path of self-inquiry and self-realization and have the power to expand each person's limited awareness into the consciousness shared by all beings. Targ explores the scientific and spiritual implications of remote viewing, as well as offering practical techniques and exercises to nurture this universally available but often untapped skill.

Perpetuum Mobile Nero Del Lào 2013-12-16 Giuseppe Tartini è un giovane violinista che come tanti, per realizzare i propri sogni, è posto davanti al dilemma se seguire la via più giusta per raggiungerli o affidarsi a percorsi più rapidi, ma oscuri. All'inizio del XVIII secolo egli si impossessa, con l'inganno, di alcuni spartiti musicali, dando così inizio ad una vita di grandi successi, ma travagliata. L'intelligenza e l'intraprendenza gli consentiranno di progredire negli studi della più varia natura, tra cui la Magia e la Teurgia, e quindi di scoprire il

segreto per non morire. Molti anni dopo, la vita del conte decaduto, Andrè D'Aguilles, attento studioso di antropologia del Sud-est europeo, viene sconvolta dalle Guerre Napoleoniche. Audace ufficiale di cavalleria verrà involontariamente risucchiato nella terribile Crisi di Vampirismo che sconvolgeva l'area carpato-balcanico-danubiana. Fra Moravia, Regno d'Ungheria e Balkan selvaggio, fra indovinelli, saggi ebrei sefarditi, duelli, dolore, morte, sangue e folklore si sviluppa la caccia al misterioso Signore dei Vampiri. Tartini, Paganini e Andrè simboleggiano il Male e il Bene, e le scelte che fin da giovani si è chiamati a fare.

Harnessing the Power of Technology to Improve Lives P. Cudd 2017-09-05 The lives of people with disabilities are complex and various, and there are many situations where technology – particularly assistive technology – already makes a real difference. It is clear that smart phone and tablet computer based solutions continue to enhance the independence of many users, but it is also important that more traditional assistive technologies and services are not forgotten or neglected. This book presents the proceedings of the 14th conference of the Association for the Advancement of Assistive Technology in Europe (AAATE 2017) entitled: 'Harnessing the power of technology to improve lives', held in Sheffield, UK, in September 2017. This 4-day event about assistive technologies (AT) highlights the association's interest in innovating not only technology, but also services, and addresses the global challenge of meeting the needs of the increasing number of people who could benefit from assistive technology. The 200+ papers in the book are grouped under 30 subject headings, and include contributions on a wide range of topical subjects, including aging well and dementia; care robotics; eHealth and apps; innovations; universal design; sport; and disordered speech. The breadth of the AAATE conference reflects people's life needs and so the book is sure to contain something of interest to all those whose work involves the design, development and use of assistive technology, whatever the situation. The photo on the front cover illustrates the breadth of assistive technologies that can improve lives. Photographer: Simon Butler.

The Designing for Growth Field Book Jeanne Liedtka 2019-04-30 Designing for Growth: A Design Thinking Tool Kit for Managers (D4G) showed how organizations can use design thinking to boost innovation and drive growth. This updated and expanded companion guide is a stand-alone project workbook that provides a step-by-step framework for applying the D4G tool kit and process to a particular project, systematically explaining how to address the four key questions of the design thinking approach. In the field book, Jeanne Liedtka, Tim Ogilvie, and Rachel Brozenske guide readers through the design process with reminders of key D4G takeaways as they progress. Readers learn to identify an opportunity, draft a design brief, conduct research, establish design criteria, brainstorm, develop concepts, create napkin pitches, make prototypes, solicit feedback from stakeholders, and run learning launches. This second edition is suitable for projects in business, nonprofit, and government contexts, with all-new tools, practical advice, and facilitation tips. A new introduction discusses the relationship between strategy and design thinking.

Internet of Things and Artificial Intelligence in Transportation Revolution Miltiadis D. Lytras 2021-04-14 The advent of Internet of Things offers a scalable and seamless connection of physical objects, including human beings and devices. This, along with artificial intelligence, has moved transportation towards becoming intelligent transportation. This book is a collection of eleven articles that have served as examples of the success of internet of things and artificial intelligence deployment in transportation research. Topics include collision avoidance for surface ships, indoor localization, vehicle authentication, traffic signal control, path-planning of unmanned ships, driver drowsiness and stress detection, vehicle density estimation, maritime vessel flow forecast, and vehicle license plate recognition. High-performance computing services have become more affordable in recent years, which triggered the adoption of deep-

learning-based approaches to increase the performance standards of artificial intelligence models. Nevertheless, it has been pointed out by various researchers that traditional shallow-learning-based approaches usually have an advantage in applications with small datasets. The book can provide information to government officials, researchers, and practitioners. In each article, the authors have summarized the limitations of existing works and offered valuable information on future research directions.

Smart and Sustainable Intelligent Systems Namita Gupta 2021-03-24 The world is experiencing an unprecedented period of change and growth through all the electronic and technilogical developments and everyone on the planet has been

impacted. What was once 'science fiction', today it is a reality. This book explores the world of many of once unthinkable advancements by explaining current technologies in great detail. Each chapter focuses on a different aspect - Machine Vision, Pattern Analysis and Image Processing - Advanced Trends in Computational Intelligence and Data Analytics - Futuristic Communication Technologies - Disruptive Technologies for Future Sustainability. The chapters include the list of topics that spans all the areas of smart intelligent systems and computing such as: Data Mining with Soft Computing, Evolutionary Computing, Quantum Computing, Expert Systems, Next Generation Communication, Blockchain and Trust Management, Intelligent Biometrics, Multi-Valued Logical Systems, Cloud Computing and security etc. An extensive list of bibliographic references at the end of each chapter guides the reader to probe further into application area of interest to him/her.

Advanced Methodologies and Technologies in Government and Society Khosrow-Pour, D.B.A., Mehdi 2018-11-02 Governments must continuously update policies, laws, and legislation as the world continues to rapidly evolve due to technologies and changing cultural perspectives. To streamline policy creation and implementation, governments seek new and efficient methods to ensure their citizens' and communities' safety while also encouraging citizen participation. Advanced Methodologies and Technologies in Government and Society provides research on emerging methodologies in effective governing including sections on public sector management and socioeconomic development. While highlighting the challenges facing government officials and law enforcement such as crisis response and natural disaster management, this book shows how technology use can make those areas of government more efficient and improve preventative measures. This book is an ideal resource for law enforcement, government officials and agencies, policymakers, public servants, citizen activists, researchers, and political leaders seeking

cutting-edge information to strengthen their government's relationship with society and their constituents while also strengthening their policy measures through new technology and methods.

Life A Rainbow Nayin Yagdulas Life a Rainbow. Life is like a rainbow. Life is colorful like a rainbow. Life is as beautiful as the rainbow. Ang buhay ay parang bahaghari. Mayroong simula at wakas, may maliwanag at may madilim, may ibat ibang kulay nito, sa dulo, may nakaabang na saya at mga aral na dadalhin ng bawat isa hanggang marating mismo natin ang langit. Life is borrowed like a rainbow. Life will fade like a rainbow . Life is life a rainbow. Life A rainbow.

The Global Findex Database 2017 Asli Demirguc-Kunt 2018-04-19 In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalfindex.
