**The Amistad Revolt** Iyunolu Folayan Osagie 2000 From journalism and lectures to drama, visual art, and the Spielberg film, this study ranges across the varied cultural reactions--in America and Sierra Leone--engendered by the 1839 Amistad slave ship revolt. Iyunolu Folayan Osagie is a native of Sierra Leone, from where the Amistad's cargo of slaves originated. She digs deeply into the Amistad story to show the historical and contemporary relevance of the incident and its subsequent trials. At the same time, she shows how the incident has contributed to the construction of national and cultural identity both in Africa and the African diaspora in America--though in intriguingly different ways. This pioneering work of comparative African and American cultural criticism shows how creative arts have both confirmed and fostered the significance of the Amistad revolt in contemporary racial discourse and in the collective memories of both countries.

Of One Blood Paul Goodman 1998 The abolition movement is perhaps the most salient example of the struggle the United States has faced in its long and complex confrontation with the issue of race. In his final book, the late historian Paul Goodman demonstrates that the abolitionist movement had a far broader social basis than was previously thought, encompassing ordinary citizens across the country.

Celebration of Discipline Richard J. Foster 1988-10-05 In the twenty years since its publication, Celebration of Discipline has helped over a million seekers discover a richer spiritual life infused with joy, peace, and a deeper understanding of God. For this special twentieth anniversary edition, Richard J. Foster has added an introduction, in which he shares the story of how this beloved and enduring spiritual guidebook came to be. Hailed by many as the best modern book on Christian spirituality, Celebration of Discipline explores the "Classic Disciplines," or central spiritual practices, of the Christian faith. Along the way, Foster shows that it is only by and through these practices that the true path to spiritual growth can be found. Dividing the Disciplines into three movements of the Spirit, Foster shows how each of these areas contribute to a balanced spiritual life. The inward Disciplines of meditation, prayer, fasting, and study, offer avenues of personal examination and change. The outward Disciplines of simplicity, solitude, submission, and service, help prepare us to make the world a better place. The corporate Disciplines of confession, worship, guidance, and celebration, bring us nearer to one another and to God. Foster provides a wealth of examples demonstrating how these Disciplines can become part of our daily activities-and how they can help us shed our superficial habits and "bring the abundance of God into our lives." He offers crucial new insights on simplicity, demonstrating how the biblical view of simplicity, properly understood and applied, brings joy and balance to our inward and outward lives and "sets us free to enjoy the provision of God as a gift that can be shared with others." The discussion of celebration, often the most neglected of the Disciplines, shows its critical importance, for it stands at the heart of the way to Christ. Celebration of Discipline will help motivate Christians everywhere to embark on a journey of prayer and spiritual growth.

**Bark Canoes and Skin Boats of North America** Edwin Tappan Adney 2014-04-01 Everything you need to know about the nearly lost art of bark and skin craft. The bark canoes of the North American Indians, particularly those made of birch bark, were among the most highly developed manually propelled primitive watercraft of their time. They could be used to carry heavy loads in shallow streams but were light enough to be hauled long distances over land. Built with Stone Age tools from available materials, their design, size, and appearance were varied to suit the many requirements of their users. Upon arrival in North America, European settlers began using the native-made craft for traveling through the wilderness. Even today, canoes are based on these ancient designs. Bark Canoes and Skin Boats of North America combines historical background with easy-to-understand, practical instructions. Author Edwin Tappan Adney, born in 1868, devoted his life to studying canoes and was practically the sole scholar in his field. His papers and research have been assembled by a curator at the Smithsonian Institution and illustrated with black-and-white line drawings, diagrams, and photos. Included here are measurements, detailed drawings, construction methods, and models. The book covers canoes from Newfoundland to the Pacific Ocean, as well as umiaks and kayaks from the Arctic. Bark Canoes and Skin Boats of North America is not only a must-have for boatbuilding hobbyists, but also for those with a fascination for the history behind them. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
