Understanding Language Testing Dan Douglas 2014-03-18 Understanding Language Testing presents an introduction to language tests and the process of test development that starts at the very beginning. Assuming no knowledge of the field, the book promotes a practical understanding of language testing using examples from a variety of languages. While grounded on solid theoretical principles, the book focuses on fostering a true understanding of the various uses of language tests and the process of test development, scoring test performance, analyzing and interpreting test results, and above all, using tests as ethically and fairly as possible so that test takers are given every opportunity to do their best, to learn as much as possible, and feel positive about their language learning. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics and language education, or anyone in a related discipline looking for a first introduction to language testing.

Secondary School English Education in Asia Bernard Spolsky 2015-03-27 Continuing on from the previously published Primary School English-Language Education in Asia: From Policy to Practice (Moon & Spolsky, 2012), this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul, Korea. It surveys the current status, practices, challenges, and future directions of Secondary English education in 11 diverse countries - in Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories, and practices related to

the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. Secondary School English Education in Asia: From Policy to Practice critically analyses both sides of the English language debate – from advantages to complications – in its chapters including: Educating for the 21st Century: The Singapore Experience Miles to Go ...: Secondary Level English Language Education in India English Language Education Innovation for the Vietnamese Secondary School: The Project 2020 Exploring the Value of ELT as a Secondary School Subject in China: A Multi-goal Model for English Curriculum Secondary School English Education in Asia will appeal to English Language Teaching (ELT) researchers, teacher educators, trainee teachers and teachers, primarily those teaching in Asia.

Education and Technology for a Better World Arthur Tatnall 2009-07-14 Education and Technology for a Better World was the main theme for WCCE 2009. The conference highlights and explores different perspectives of this theme, covering all levels of formal education as well as informal learning and societal aspects of education. The conference was open to everyone involved in education and training. Additionally players from technological, societal, business and political fields outside education were invited to make relevant contributions within the theme: Education and Technology for a Better World. For several years the WCCE (World Conference on Computers in Education) has brought benefits to the fields of computer science and computers and education as well as to their communities. The contributions at WCCE include research projects and good practice presented in different formats from full papers to posters, demonstrations, panels, workshops and symposiums. The focus is not only on presentations of accepted contributions but also on discussions and input from all participants. The main goal of these conferences is to provide a forum for the discussion of ideas in all areas of computer science and human learning. They create a unique environment in which researchers and practitioners in the fields of computer science and human learning can interact, exchanging theories, experiments, techniques, applications and evaluations of initiatives supporting new developments that are potentially relevant for the development of these fields. They intend to serve as reference guidelines for the research community.

English Language Proficiency Assessments for Young Learners Mikyung Kim Wolf 2017-05-25 English Language Proficiency Assessments for Young Learners provides both theoretical and empirical information about assessing the English language proficiency of young learners. Using large-scale standardized English language proficiency assessments developed for international or U.S. contexts as concrete examples, this volume illustrates rigorous processes of developing and validating assessments with considerations of young learners' unique characteristics. In this volume, young learners are defined as school-age children from approximately 5 to 13 years old, learning English as a foreign language (EFL) or a second language (ESL). This volume also discusses innovative ways to assess young learners' English language abilities based on empirical studies, with each chapter offering stimulating ideas for future research and development work to improve English language assessment practices with young learners. English Language Proficiency Assessments for Young Learners is a useful resource for students, test developers, educators, and researchers in the area of language testing and assessment.
