Fins Randy Wayne White 2020-03-31 From Randy Wayne White, the New York Times bestselling author of the Doc Ford series for adults, comes *Fins*, a high-stakes, masterfully plotted story of courage, friendship...and sharks! The world's shark population is in trouble for a sad, simple reason: shark fin soup. And although it's illegal, poachers have been targeting Florida's biannual migration of blacktip sharks. Marine biologist Doc Ford needs some assistance protecting the sharks and enlists the help of three kids—Luke, Maribel and Sabina. Luke is brand-new to Florida from the Midwest; sisters Maribel and Sabina have only recently arrived from Cuba—and all three feel like fish out of water. It's going to take some convincing for them to work as a team and to recognize in themselves the courage, wisdom and tenacity that Doc sees in them. Together they form *Sharks, Inc.* and are given an important assignment: to set out each day on their small fishing boat in hopes of tagging sharks for Doc's research—and to stay away—far away—from any possible poachers in the area. The trio certainly isn't looking for trouble, but when they come face to face with danger, survival requires them to rely on each of their own unique gifts, and especially on one another.

Seduced Randy Wayne White 2017-09-26 A five-hundred-year-old mystery and a twenty-year-old murder haunt Hannah Smith in a stunning adventure by the author of the New York Times bestselling Doc Ford novels. A fishing guide and part-time investigator, Hannah Smith is a tall, strong Florida woman descended from many generations of tall, strong Florida women. But the problem before her now is much older even than that. And its consequences are lethal. Five hundred years ago, Spanish conquistadors planted the first orange seeds in Florida, but now the billion-dollar industry is in trouble. The trees are dying, weakened by infestation and genetic manipulation, and the only solution might be somehow, somewhere to find sample of the original root stock. No one is better equipped to traverse the swamps and murky backcountry of Florida than Hannah, but once word leaks out of her quest, the trouble begins. "There are people who will kill to find a direct descendant of those first seeds," she is warned—and it looks like those words may be all too prophetic. That is, if the secrets she discovers in the Florida wild about a twenty-year-old murder don't kill her first. Or the fifteen-foot-long Burmese python.
