**Riding the Tiger** John

Seidensticker 1999-02-08

Beauty, grace and power make the tiger one of the world's most loved animals, yet it is precisely these qualities that have been its downfall.

Poaching for skins and body parts, loss of habitat and prey and conflicts between people and wild tigers have caused catastrophic declines in tiger numbers throughout their range. If wild tigers are to survive through the next century, we must act now.

*Riding the Tiger* is a comprehensive, scientific and eminently readable account of the problems and possible solutions of securing a future for wild tigers. Lavishly illustrated in full colour, it is written by leading conservationists working throughout Asia. It is a vital information resource for tiger conservationists in the field, necessary reading for serious students of carnivore conservation and conservation biologists in general, and an

accessible overview of tiger conservation for general readers.

*Ride the Tiger* Julius Evola  
2018-07-13 Julius Evola's final major work, which examines the prototype of the human being who can give absolute meaning to his or her life in a world of dissolution • Presents a powerful criticism of the idols, structures, theories, and illusions of our modern age • Reveals how to transform destructive processes into inner liberation The organizations and institutions that, in a traditional civilization

and society, would have allowed an individual to realize himself completely, to defend the principal values he recognizes as his own, and to structure his life in a clear and unambiguous way, no longer exist in the contemporary world. Everything that has come to predominate in the modern world is the direct antithesis of the world of Tradition, in which a society is ruled by principles that transcend the merely human and transitory. *Ride the Tiger* presents an implacable criticism of the idols, structures, theories, and illusions of our dissolute age examined in the light of the inner teachings of indestructible Tradition. Evola identifies the type of human capable of "riding the tiger," who may transform destructive processes into inner liberation. He offers hope for those who wish to reembrace Traditionalism.
